DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Canada on 3/27/2003. It is noted, however, that applicant has not filed a certified copy of the 2,423,678 application as required by 35 U.S.C. 119(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Igo et al. (5,900,433). Igo discloses a method of inducing bleeding after surgery comprising the step of flushing a surgical site with gaseous nitric oxide, the nitric oxide being a vasodilator which induces bleeding (column 7, lines 28-33). The limitation imposed by the preamble of the claim – using said method after dental surgery – is given little patentable weight. Examiner notes that Igo discloses the treatment site for such a procedure may be any blood vessel (column 7, line 35).
